Preventive care

Preventive care can help keep you healthy or catch a problem early. When you visit a network provider, your plan covers 100% of preventive services. But you'll pay part of the cost for most non-preventive services. This table shows the difference between these two types of services.

PREVENTIVE SERVICES		NON-PREVENTIVE SERVICES
What is it?	Preventive services generally: • Screen for certain types of cancer • Immunize you against disease • Are received once per year, or as recommended by your doctor	 Non-preventive services generally: Monitor existing conditions Diagnose and treat a new condition Address any health concerns you bring up during your visit
Examples	 Most immunizations Well-child visits Preventive prenatal care Screenings for cancer, such as: Breast (mammogram or 3-D mammogram)¹ Cervical (Pap smear) Colon (colonoscopy, computed tomographic (CT) colonography, or other tests)² Screenings for other health concerns, such as: Blood pressure Cholesterol Sexually transmitted infections (STIs) Type 2 diabetes Depression Tobacco use Alcohol misuse Domestic violence 	 Treatment of illness or injury (e.g., earache, sore throat, cough, broken bone, etc.) Earwax removal X-rays Medication consultation Wart removal Monitor ongoing conditions, such as: Headaches Trouble sleeping High blood pressure Diabetes Heart conditions Lab tests to monitor existing conditions

¹Your plan covers routine mammograms or 3-D mammograms (called digital breast tomosynthesis) as described above. However, if your doctor recommends additional tests, such as a breast ultrasound or MRI, your X-ray or other imaging benefits will apply. For most plans, that means you'll incur costs for those tests.

² Your plan covers a routine colonoscopy or computed tomographic (CT) colonography as described above. Other tests such as fecal/stool DNA testing (Cologuard®), barium enema, sigmoidoscopy, or fecal occult testing are also covered.

What if you get preventive and non-preventive services during your visit?

If you get both types of care (preventive and non-preventive) at your visit, the preventive services will be 100% covered. You'll pay part of the cost for the non-preventive services. To see how your plan covers those services, check your coverage document on your member website at **Medica.com/SignIn.**

What is preventive care?

The Affordable Care Act outlines what's considered preventive care. To learn more about what's covered, go to **HealthCare.gov** and search for "preventive services."

How can I be more proactive about my health?

Go to Medica.com/Prevention to learn more.
